1/ The resident population is defined as the number of persons whose usual place of residence is in an area, regardless of physical location on the estimate or census date. It includes military personnel stationed or homeported in the area but excludes persons of local origin attending school or in military service outside the area. See also table 1.03, footnote 1 and 2. Total resident population estimates after April 1, 1990 are revisions released in December 1999 and may differ from corresponding figures in other *Data Book* tables.

2/ Average daily census. Figures reflect changes in research methodology by DBEDT in November 2000.

3/ The de facto population is defined as the number of persons physically present in an area, regardless of military status or usual place of residence; it includes visitors present but excludes residents temporarily absent. Total de facto population estimates after April 1, 1990 are revised and may differ from corresponding figures in other *Data Book* tables.
